
This is a sample file to demonstrate the bibliography generation. Use the bibliography style named natbib.bst instead of plain.bst or abbrvnat.bst to generate the bibliography with the required output.

These are the examples of cross links for the references in the bibliography, Ding and Lawrence (2003), Hackermüller *et al.* (2005), Flamm *et al.* (2004), Nussinov *et al.* (1978), Tacker *et al.* (1996).
