

Scales and Methods of Engagement

Tamara Munzner

Department of Computer Science

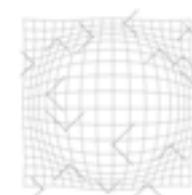

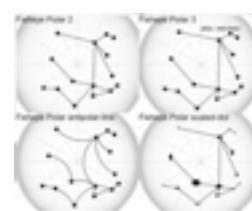

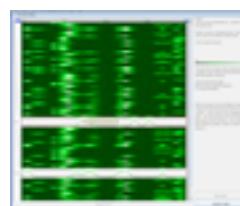

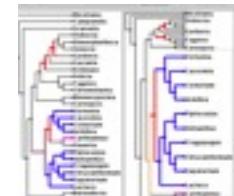

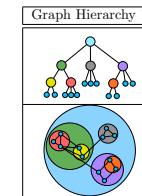

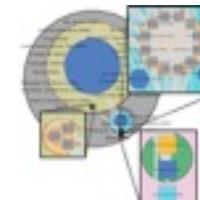

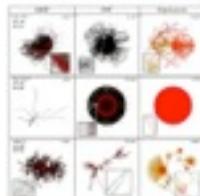

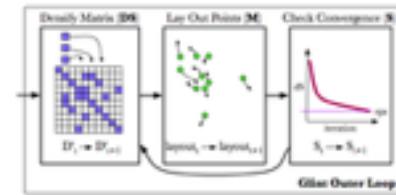

University of British Columbia

VA Tool Users and Universities Panel, CANVAS 2014 Workshop
1 August 2014, Vancouver

<http://www.cs.ubc.ca/~tmm/talks.html#canvas14>

Mentoring individuals

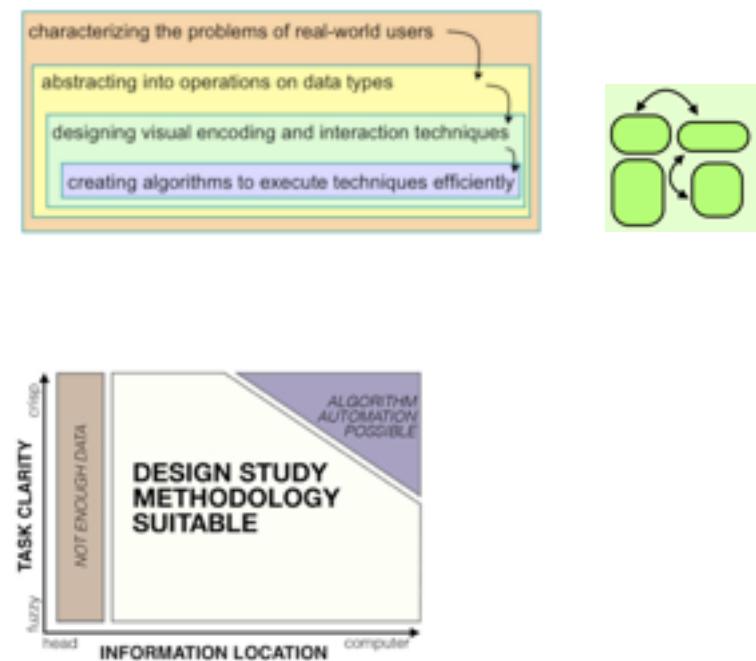

- grad students and postdocs in my group
 - prepare HQP for professor, high-level industry/lab jobs
 - produce research papers
 - techniques, systems
 - dimensionality reduction
 - graph drawing
 - focus+context
 - evaluation
 - models/taxonomies

Researcher guidance: “meta” / how to papers

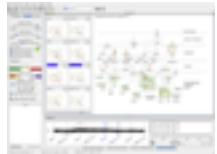

- papers process and pitfalls
- nested model for vis design and validation
 - revisited: blocks and guidelines
- design study methodology

- Type Pitfalls
 - + Design in Technique's Clothing
 - + Application Bingo versus Design Study
 - + All That Coding Means I Deserve A Systems Paper
 - + Neither Fish Nor Fowl
- Visual Encoding Pitfalls
 - + Unjustified Visual Encoding
 - + Hammer In Search Of Nail
 - + 2D Good, 3D Better
 - + Color Complexity
- Results Pitfalls
 - + Undone By Time
 - + Fear and Loathing of Complexity
 - + Steven Man Comparison
 - + Tiny Tiny Datasets
 - + But My Friends Liked It
 - + Unjustified Tasks
- Writing Style Pitfalls
 - + Deadly Detail Dump

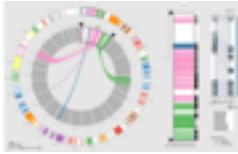

Design study methodology

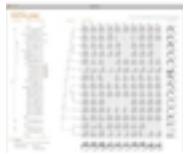

- lessons learned from 21 total (12 here), across many domains
- problem-driven work: what to do, what to avoid

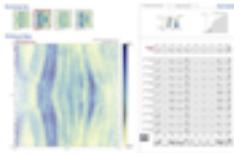

Cerebral
genomics

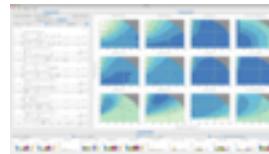

MizBee
genomics

Pathline
genomics

MulteeSum
genomics

Vismon
fisheries management

QuestVis
sustainability

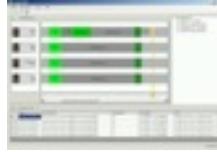

WiKeVis
in-car networks

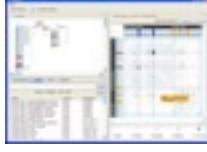

MostVis
in-car networks

Car-X-Ray
in-car networks

ProgSpy2010
in-car networks

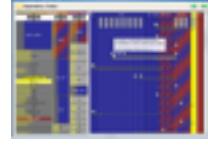

RelEx
in-car networks

Cardiogram
in-car networks

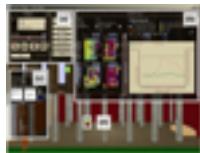

AutobahnVis
in-car networks

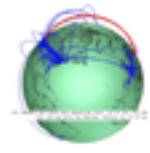

VisTra
in-car networks

Constellation
linguistics

LibVis
cultural heritage

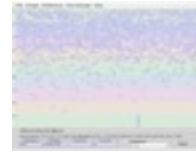

Caidants
multicast

SessionViewer
web log analysis

LiveRAC
server hosting

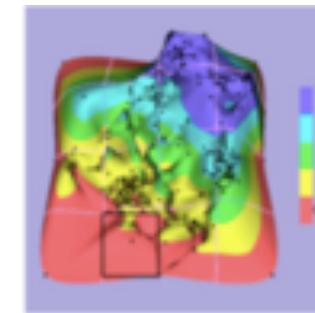

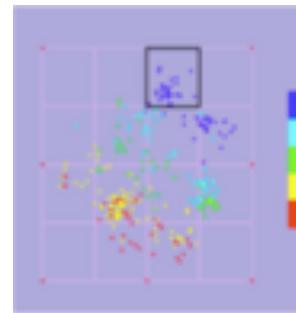

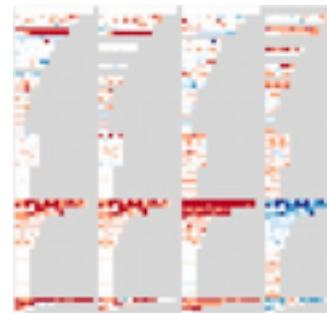

PowerSetViewer
data mining

LastHistory
music listening

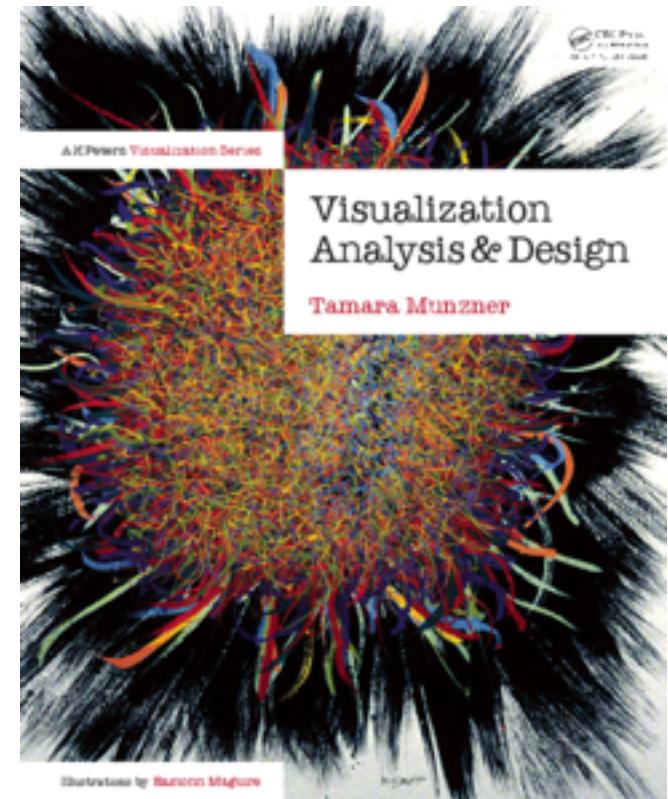

Practitioner guidance: “stop it” / how not to papers

- guidance on scatterplot, dimensionality reduction choices
 - avoid 3D scatterplots for DR data
- 2D points vs 3D landscapes
 - avoid 3D landscapes
- empirical studies

Growing the field: synthesis textbook

- analysis and design framework
 - teaching my own grad class
 - resource for others
 - support teaching by wider set
 - accelerate growth of field
 - 1998: very few courses
 - 2002: several
 - 2014: dozens
 - 2020: hundreds? thousands?...

Visualization Analysis and Design.

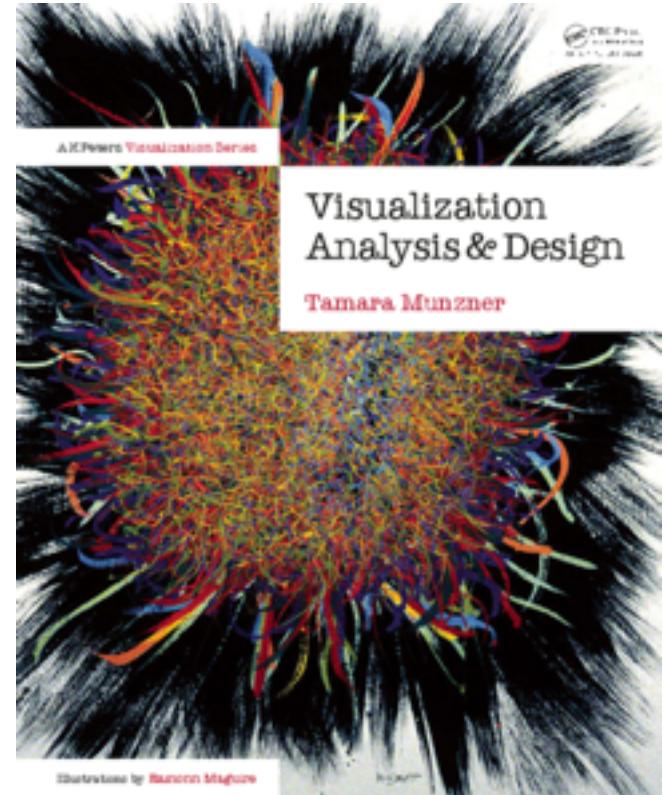

Munzner. AK Peters Visualization Series,
Taylor and Francis / CRC Press, to appear Oct 2014.

Past and Future

- scales of engagement
 - individuals
 - students in my course
 - research community
 - practitioner community
 - students worldwide
- methods of engagement with industry
 - direct collaboration with individuals at companies
 - Agilent, AT&T, Google, small startups
- my past: very research/academic centric
- my future: other/broader channels?...
