

UBC Department of Computer Science

Request To Be Forced Into Courses Required To Graduate

Please submit this form only if *all* of the following apply:

- You are in one of the following specializations / programs:
 - o a Major, Combined Major, Honours or Combined Honours specialization in Computer Science.
 - o the BCS program.
 - o the Computational Intelligence and Design stream of the Cognitive Systems program.
 - o one of the other streams of the Cognitive Systems program, only need one additional COGS module course to graduate, and none of the non-CPSC module courses for which you have prerequisites has space.
 - o the CMS SCIE specialization, are pursuing the CPSC option, and need only one additional CPSC course to complete graduation requirements.
 - o a specialization for which a CPSC course is explicitly listed as a requirement for graduation in the UBC Calendar.
- You have carefully checked the availability of all CPSC courses and are unable to find *any* courses for which you have prerequisites that will allow you to meet graduation requirements.
- You are requesting registration in courses that are specifically needed for graduation from your program.
- You are within 30 credits of graduation for registration in a winter term 1 course or within 15 credits of graduation for registration in a winter term 2 course or you are planning to graduate in November and need a summer session course to fulfil graduation requirements.

You must not submit this form for *any* of the following reasons:

- Seats are available in CPSC courses that will allow you to meet graduation requirements, but you'd prefer to take other courses
- You want to take a CPSC course to satisfy technical or general upper level elective requirements.
- You want to take a CPSC course to satisfy the thematic concentration requirement for the STAT major.
- You want to take a CPSC course to satisfy a requirement of a program outside the Faculty of Science where students partly design their own curriculum (for instance the Interdisciplinary Studies BA or the BASC in Integrated Engineering).
- You want to take a CPSC course to satisfy the CPSC option in the CMJ SCIE specialization, and more than one additional CPSC course is needed to complete graduation requirements.

- You want to take a CPSC course because you want to get into grad school.
- You want to take a CPSC course to help your future career plans.

Please note that the department does not guarantee that you will be registered in the requested courses. Assuming you meet the conditions stated above, we will add you to course(s) that fit your schedule, for which you have the necessary prerequisites and that will allow you to meet graduation requirements. Note that we will typically register you in courses that have the shortest waitlist or highest probability of a seat opening up.

Name:

Student #:

E-mail address:

Faculty:

Specialization:

Courses requested:

- 1) CPSC _____ Section _____ Already waitlisted? _____
- 2) CPSC _____ Section _____ Already waitlisted? _____
- 3) CPSC _____ Section _____ Already waitlisted? _____

Please provide reasons why the above courses are needed for graduation from your specialization.

[] I acknowledge that I meet the conditions stated above
