

Fall 2011 BCCEC Institutional Report

Langara College

Department of Computing Science and Information Systems

DIPLOMA AND CERTIFICATE PROGRAMS

- CSD (Computer Studies Diploma) is getting some enrollments. But the other programs are getting few applications.

CURRICULUM CHANGES

- A new course named CPSC 1045 – Introduction to Web Programming was created and it is on its way to get the approval by Langara Education Council.
- All our programs are being changed to reflect the changes from renumbering the database course CPSC 1220 to CPSC 2221 and discontinuing a few courses.

FACULTY CHANGES

- No changes

OTHER CHANGES

- The college is switching from Blackboard to Desire2Learn.

ENROLLMENT

- Our enrollment numbers are very good (see the chart below). Most of our courses have a long waiting list.
- Several new first year sections were added to meet the students' demand.
- We are offering regular sections and mixed mode sections/web sections at the same time for the same course to meet different kinds of needs from the students.
