

HOROSCOPES & HUMOUR

By Dave Tompkins

THIS MONTH'S THEME: I'VE BEEN BRIBED

ARIES (March 21 – April 19)

The stars all point towards jobs. We see lots of jobs in your future. And this month we're not just talking about blowjobs. We mean actual employment.

TAURUS (April 20 – May 20)

This month your body is going to experience feelings and sensations that you have never felt before.... But in a good way. A VERY good way!

GEMINI (May 21 – June 21)

Something you read this month will change the way you think about the world, and will help shape your future. But that something is not this horoscope.

CANCER (June 22 – July 22)

George W.: you're a Cancer, both astrologically and metaphorically. You'll lose the election, restoring some sanity to the world. (Sorry to the rest of you).

LEO (July 23 – Aug. 22)

You'll find something you've been missing, but you don't know you're missing it, but when you do find it, you'll realize you were missing it in the first place.

VIRGO (Aug. 23 – Sep. 22)

Oddly, your Halloween costume this year will dictate your fortune, so please put some thought into it. I'd definitely reconsider your 'sexy hobo' costume idea.

LIBRA (Sep. 23 – Oct. 23)

Your birthday wish will come true. If you didn't make one, quickly blow out a candle and make a post-birthday wish, but no guarantees on that one.

SCORPIO (Oct. 24 – Nov. 21)

Like in a bad movie, the clouds will part and a beam of sunshine will strike your forehead... inspiring you to achieve things that you never thought possible.

SAGITTARIUS (Nov. 22 – Dec. 21)

Like a breath of a fresh air, or a tornado knocking over a trailer park, redemption will sweep down: erasing sins of the past and granting you life anew.

CAPRICORN (Dec. 22 – Jan. 19)

You'll get some extra money, creating wiggle room in your normally non-wiggleable budget. Go buy yourself something nice. You totally deserve it.

AQUARIUS (Jan. 20 – Feb. 18)

This month you will be bitten by a radioactive animal (but we're not sure which one). However, you will receive super powers corresponding to that animal.

PISCES (Feb. 19 – March 20)

No pisceses (how do you pluralize that?) bribed me, so this month you're going to royally screw up your life and be completely miserable... cheapskates.
