

6. (6 marks) The html code on the left produces the view on the top right.

1. <html>
 2. <head>
 3. <title> Friday quizzes </title>
 4. </head>
 5. <body>
 6. <h1 align = center> Friday quizzes </h1>
 7. ... are no fun.
 8. Here's why they should be cancelled:
 9.
 10. No-one is awake at 9:00am
 11. It might be raining.
 12.
- </body>
</html>

Suppose that you want the page to look like the view on the bottom right. Notice that there are three differences: the name of the page in the top bar has changed, only the words “no fun” are underlined, and the list items are numbered. Make changes to **four lines** of the html code, so that it will produce the picture on the bottom right. (Hint: there is a missing tag in line number 7.)
