• Spyware

...can you think of others?
Information Privacy

“It should be illegal for shopping malls to install cameras for tracking customer behavior.”
Data Mining

• Data mining
  – Searching for patterns or relationships in one or more databases
  – This info typically provided by the customer for another purpose

• Many internet services are essentially provided as an opportunity to gather valuable data
  – Google; Facebook; free online courses

• Also performed by the government
  – Efforts to detect terrorism via phone, bank, travel records
  – Tax audits

• Questions:
  – Ownership: do you have any rights over information arising from transactions in which you participated?
  – Ethics: what data mining activities are unethical? Which are ethical?
  – Does it make a difference whether DM is opt-in or opt-out?
  – At what point does DM become “creepy”?
  – Should we worry about ending up in a “personalization bubble”?
