

Blue's Clueless Brainteaser (Solution)

This crossword has the same clues as Peppa's crossword, with two exceptions: The hint for COLO(U)R refers to Blue not being able to see colors and the hint for LABO(U)R refers to the different dates for Labor Day in the US and the UK. This puzzle can be completed using regular US spellings (see Peppa's for the UK spellings). However, because Blue cannot see the colors, it is (intentionally) very difficult to find the solution phrase with the highlighted letters being out of order.

One can either try to solve the puzzle via brute force (e.g. starting to fill in the short words first), or by using logic after solving Peppa's version: one can find the US equivalent for Peppa's "Bob's your uncle" phrase: AND THERE YOU HAVE IT

Across

2. Stinky element
6. Collects a lot of bugs, on a long road trip
8. I summon Dark Magician in _____ model!
