SIMON FRASER UNIVERSITY
ENGAGING THE WORLD

A wide-angle photograph of a modern university courtyard. The courtyard is paved with light-colored bricks and is flanked by multi-story concrete buildings with a grid-like facade. A large, covered walkway with a metal truss structure spans across the courtyard. In the background, a large, white, tent-like structure is visible. The sky is blue with some clouds.

HELP! IS ANYONE A DOCTOR?

I'm a doctor! What do you need?

HE'S HAVING A HEART ATTACK!

Well, I'm a UBC Science student so almost a doctor haha ;P

HE'S GOING TO DIE!

Let me tell you why UBC is the top university in the world. We're better than Harvard. This makes us part of an elite class. Food is expensive but thats because its world renowned food. Even the 99B line is better than the 145 because it is closer to number 1.

Moral character

From Wikipedia, the free encyclopedia

See also: [Character structure and good moral character](#)

Moral character or **character** is an evaluation of an individual's stable [moral](#) qualities. The concept of *character* can imply a variety of attributes including the existence or lack of [virtues](#) such as [empathy](#), [courage](#), [fortitude](#), [honesty](#), and [loyalty](#), or of good behaviors or [habits](#). Moral character primarily refers to the assemblage of qualities that distinguish one individual from another—although on a cultural level, the set of moral behaviors to which a social group adheres can be said to unite and define it culturally as distinct from others. Psychologist Lawrence Pervin defines moral character as "a disposition to express behavior in consistent patterns of functions across a range of situations".^[1] Similarly, the philosopher George refers to moral character as the "sum of one's moral habits and dispositions."^[2] Aristotle has said, "we must take as a sign of states of character the pleasure or pain that ensues on acts."^[3]

UBC SURRENDER

November 10th, 2017.

//

SFU won the war because UBC's meme quality was low. Most of the memes are 'reversible' and not unique to SFU. That paired with UBC not posting as many memes means they had higher volume and quality.
